DIARY NOTES

DD/S *W*

25 March 1965

1. I discussed the following items with Emmett Echols:

a. I discussed the new title which Emmett proposed for [REDACTED] Personnel Recruitment Division and authorized him to use "Recruitment and Retiree Placement Division."

25X1A9a

b. Emmett talked with me about an appeal by the Contact Division to upgrade [REDACTED] job (Executive Officer) to grade GS-15. I told Emmett that, although my personal knowledge of his responsibilities was pretty much out of date, I recalled his job was not as responsible as a grade GS-15 position generally. In fact, I think that the Chief of Support [REDACTED] has a more responsible job than his counterpart in Contact Division.

2. [REDACTED] telephoned to see whether we had figured out any way to use General Carter's recent speech to the Midcareerists. I told him that the two points which General Carter made in the speech were valid indeed but that it contained so much vernacular I didn't see how we could really use it in a Support Bulletin or any such publication unless it was completely rewritten.

3. I addressed the JOT Class on Support functions.

* * * * *

4. John Bross telephoned to solicit my help in nominating a candidate for Comptroller of the National Security Agency. He thought that the job would eventually be a grade GS-17 or GS-18. I said that I knew of no one who could do the job other than Bob Fuchs and [REDACTED] and that I assumed neither would be interested.
